RADDOG™ 2LE

Introducing RADDOG 2LE, the revolutionary solution from Robotic Assistance Devices (RAD), designed exclusively for law enforcement professionals. This groundbreaking robot is set to transform law enforcement agencies worldwide, providing **an unprecedented advantage in the field**. With its agile quadruped (four-legged) design and cutting-edge external accessories, RADDOG 2LE empowers officers to reach inaccessible areas, conquer challenging terrain, and navigate through perilous environments. By prioritizing officer safety and community protection, RADDOG 2LE is poised to redefine law enforcement operations.

Experience the remarkable capabilities of RADDOG 2LE as it conducts inspections, surveillance, and reconnaissance with **unmatched efficiency and cost-effectiveness**. **This robotic marvel is a force multiplier**, enhancing the capabilities of law enforcement personnel. By seamlessly augmenting their resources, RADDOG 2LE amplifies their effectiveness in crime prevention, upholding public safety, and ensuring swift emergency response.

Don't miss the opportunity to equip your law enforcement agency with the game-changing RADDOG 2LE. **Elevate your capabilities, maximize officer effectiveness, and reinforce your commitment to safeguarding communities.**

Your Trusted Companion in Law Enforcement.

"This tool can be used as an additional resource for multiple emergency situations that can help law enforcement. The robot can be deployed to assist in incidents where our officers and citizens can be in immediate danger and potentially provide a safer solution and reduce the risk in dangerous circumstances."

City of Taylor, Michigan, January 2024

RADDOG 2LE's Unparalleled Ease of Use

Experience seamless control with RADDOG 2LE's user-friendly joystick, allowing you to remotely operate the robot with precision from a distance of up to 200 yards. Additionally, the robot offers the convenience of 'drive by wire' technology, enabling teleoperation from a laptop or desktop computer*.

Unlock a new level of versatility and efficiency with RADDOG 2LE, your ultimate solution for remote robotic exploration.

* Requires a robust cellular signal for reliable connectivity

RADDOG 2LE Is Ready to Become the Next Member of Your Law Enforcement Organization

Discover the exceptional capabilities of RADDOG 2LE, designed to effortlessly navigate challenging terrain and obstacles. With its advanced camera arrangement, the robot provides unparalleled visibility, ensuring smooth maneuverability around objects and rough terrain.

RADD OG 2LE, equipped with impressive capabilities that will exceed your expectations. With a maximum walking speed of up to 5 mph (2.23m/s), this agile robot can swiftly navigate any environment with ease. Its versatile maneuverability allows for quick runs, seamless backward steps, smooth lateral shifts, precise turning in place, subtle forward creeping, effortless rolling over, impressive jumps, obstacle crossing, and obstacle avoidance. Be prepared for the ultimate exploration experience.

During its missions, RADD OG 2LE diligently captures video data with its remarkable 360° field of view. With RAD innovative RADSoC™ video management system, storing and retrieving video footage is effortless. Experience the convenience of storing up to 120 hours of recorded video, ensuring that no crucial data is missed. Seamlessly retrieve and review your video data for analysis, evaluation, and future reference.

RADD OG 2LE is your trusted companion for comprehensive video capture and exploration. Enhance your capabilities and redefine what's possible with RADD OG 2LE.

So, unleash the power of RADD OG 2LE, the ultimate high-endurance quadruped robot. When the demands are high and the challenges are tough, you can trust RADD OG 2LE to deliver unmatched performance and reliability. Unlike other quadruped robots on the market, RADD OG 2LE sets the benchmark for endurance and capability, ensuring it outpaces the competition every time.

Don't settle for less when you can have the best - and save money with RADD OG 2LE.
